Getting a Kick Out of Physical Education

Who we are....

As Qualified Sport Professionals we are dedicated to increasing engagement and learning within school sport by using our knowledge and experience to educate staff and pupils to lead and sustain a healthy and active lifestyle.

We provide a Partnership that is aimed to best fit and mould into your schools values and beliefs by tailoring our support to your school needs and going above and beyond to ensure your school reaches its full potential within sport and physical education.

We offer continued support and development from our staff members who are continually learning and adapting to the ever changing world of physical education amongst children. We look to work with staff on everything from the planning process, health and safety, and delivery to boost your staff's confidence and understanding.

We achieve high Standards through being punctual and professional at all times. Sticking to our own "BE ACTIVE" rules along with adhering to your schools behaviour codes of conduct.

We Are Approachable, we are always open to new ideas, sharing our facilities, staff and contacts to best improve or provide for your schools sporting needs.

ST. NEOTS

LEARNING & SPORTS ACADEMY

ACTIVE: getting your body and your mind working through exercise

CHALLENGE: Taking risks and trying to push yourself

TEAM: Supporting each other, working together and sharing idea's

IMPROVE: Learning and developing physical skills and understanding

VERSATILE: Trying something new and different

ENVIROMENT: Being Happy and having fun

Getting a Kick Out of Physical Education

Curricular....

Up skill

We will Work alongside staff to assess pupils within lessons, and will, if required place children's levels at exceeding, expected or emerging in line with curriculum marking.

We use different teaching and coaching styles within our lessons dependent upon ability, age and confidence of the children.

We look to Work together to provide creative and inclusive lessons with new and exciting activities whilst understanding the benefits of doing skills and activities differently.

Frequent Meetings and CPD will provide opportunities to provide clarity or address any issues that may arise. This will also be a time for us to feedback to teachers our evaluation of students if required.

By Working together with staff we can build a syllabus that best benefits the pupils and utilises the 2 hour a week P.E slot. We can split groups by ability or to encourage class diversity in friendship groups. We monitor pupil progression and planning and adapt our lessons accordingly.

PPA Cover

Working to a syllabus put forward by SNLASA with approval from the P.E coordinator.

Regular meetings with P.E coordinator to share anything regarding P.E SNLASA will deliver and assess all PE lessons providing teaching staff with copies of plans and assessments.

Getting a Kick Out of Physical Education

Engage....

Our aim is to give pupils the best opportunities to participate and enjoy all forms of physical activity. We strive to Increase the engagement of those less active and target them by providing fun, imaginative and inclusive PE lessons along with a variety of alternative after school clubs. We will work alongside your school, sharing ideas and gathering data to find the clubs that best fit and will maximise participation. Being active in the community and having connections with various other sport specific clubs and venues means we can provide club links and chances for pupils to pursue their chosen sport outside of the school.

We aim to keep all of our clubs fresh and exciting using new and creative idea's to engage pupils. However there are always a few firm favourites and we will monitor the uptake in all our clubs to ensure we offer the most popular alongside some diversity. We will look to promote and advertise clubs through flyers and school assemblies along with rewarding pupil who participate and improve. This reward can be something that is shared throughout the school using these pupils as role models and sharing why and how they have achieved this award.

EXTRA CURRICULAR

GET ACTIVE

Our clubs are aimed at getting less active pupils engaged in physical activity as well as celebrating the natural sporting talent that other pupils have. Some activities will move away from traditional sports and will remove any competition or team elements meaning it really is 'Sport for all' We use creative games and exploring tasks with a focus on improving basic skills, trying something new and having fun.

Multi skills club

Multi skills uses elements of sports and combines them to make new and creative games or activities. These activities will be fun, inclusive but while still working on the fundamentals. The club will be adapted for all ages and abilities including different roles and challenges to tailor to all.

TEAM TRAINING

Pupils who are chosen to participate in a particular event can practice together prior to the event for increased skill and confidence.

SPORT SPECIFIC

Open to all. Sometimes we have very high uptake for particular clubs, if this is the case we recommend a 'first response' placement. Clubs will be for a chosen sport in which participants will develop and enhance skills along with playing in games and matches that we arrange.

INCLUSIVE LUNCH CLUB

A multi-sport club aimed to accommodate as many pupils as possible. The activity will change each week and pupils will rotate through the lunch time period.

SPECIFIC LUNCH CLUB

Pupils will be chosen to participate in this club and will need appropriate PE kit. This will be a specific sport and is aimed at a particular group of pupils. Example being Year 5-6 girls football.

EXTRA CURRICULAR

GET ACTIVE
Get Active
Engaging less active pupils
Non Competitive, no point scoring, no winning or losing
Healthy lifestyle
Confidence boost
Improving basic skills
Creative and themed activities and games, moving away from traditional sport
Rewards for participation

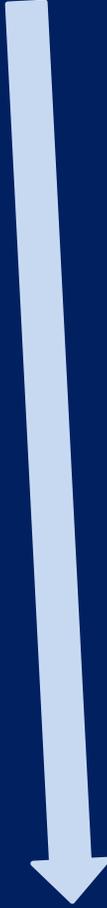

SPORT SPECIFIC
Creative and different ways of enjoying your favourite sport
Suitable and differentiated for the needs of all participants
Learning new skills
Becoming your sporting idol
Games and competitions
Not just your traditional sports, any sports are possible (kit provided)

SPECIFIC LUNCH CLUB
Team or training
Chosen participants
Organised activities to get the most out of a shorter time slot
Improving as a team or small group

Multi-Skills
A Club based around improving the fundamentals
Using ideas of traditional sports adapting and changing for creative games and activities
Adapted challenges for all
Team work
Confidence

Team training
Selected squad
Preparing for games and competitions
Understanding competition rules
Tactics and game plans
Positions and roles
Improving
Communication and teamwork

INCLUSIVE LUNCH CLUB
Structured play
Behaviour management
Activities to accommodate large numbers
Improving skills of popular games and activities

COMPETITIVE OPPORTUNITIES

INTRA-SCHOOL

At the end of term or unit of work we will look to apply the KS2 learning in a competition format. This has proven to be very popular and we can split children into 'house' groups or put them with others of similar ability. We can hold termly competitions for years 3-6. Rewards for winning or participating in the competitions will be discussed to best fit the school philosophy. Having access to sixth form students keen on coaching and gaining coaching experience means we can provide our qualified PE staff alongside students to help run and officiate the tournaments or competitions. We find the sixth-formers enjoy this just as much as the children, and the children gain from the slightly 'less formal' approach of the sixth form tutors.

INTER-SCHOOL COMPETITION

SNLASA will be hosting and running our own sport festivals throughout the year. These festivals will be aimed at the schools we work with as well as inviting other local schools. We want to provide competition based days for those more able while also providing inclusion and participation days for pupils that might not get the chance to go to a sports event outside of school. Our year 6 transition sports festival will also give year 6 pupils the opportunity to mix and play sport with other students who may then join them in year 7 at their Senior school. We believe representing your school is an important activity that all students should have the chance of experiencing either in a competitive or inclusive manner.

MONITORING PROGRESS

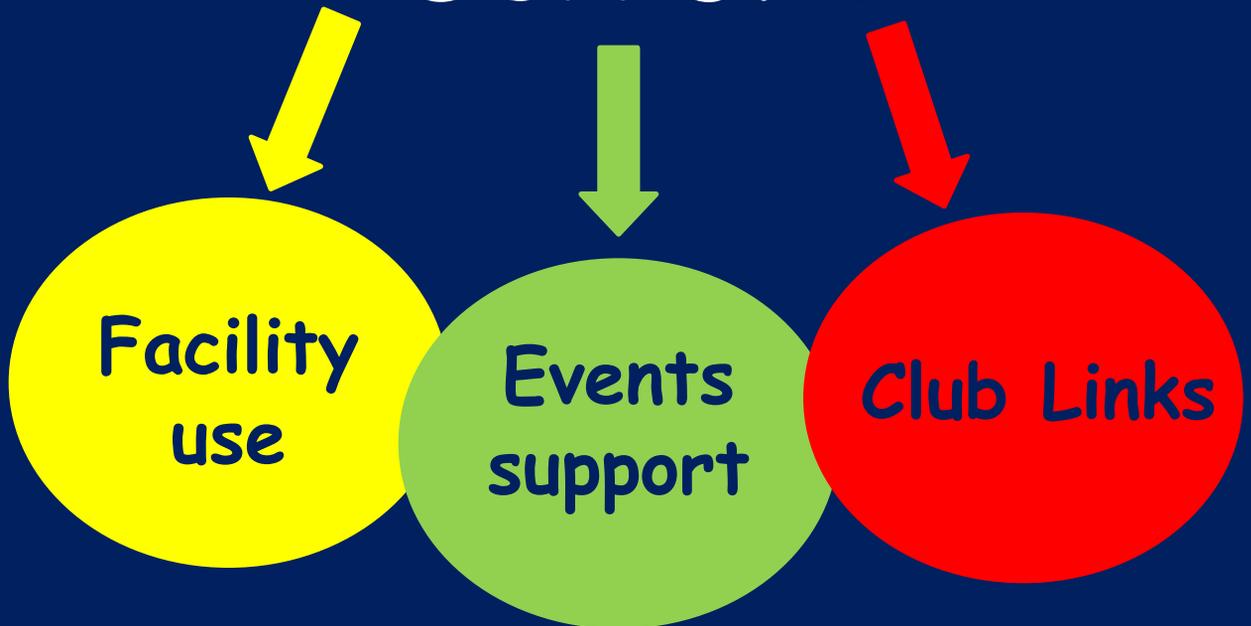

We monitor the progress of students and collect data on improvements throughout the year. We are keen on promoting a healthy lifestyle and aim for the pupils to be aware of an increase or decrease in their fitness levels. By providing a basic fitness circuit we will look for pupils to record results which can then be used to display progress. This would be repeated 3 times throughout the year and then we can compare results and progress thus challenging pupils to better their own targets.

SCHOLARSHIP STUDENTS

SNLASA has a development policy which encourages post 16 students, who have shown an interest in coaching and teaching, to gain experience working alongside our qualified coaching staff. All Scholars will be DBS checked with the vast majority completing their level one coaching badge which covers safeguarding and emergency first aid also. At no stage will a scholar be left to supervise pupils unsupported by one of our qualified coaching staff.

ADDITIONAL
SUPPORT

We are open to all and any form of support your school may need so please do not hesitate to ask us.
